## 24 CFR Part 58

| General requirements  | Legislation   | Regulation   |
|---|---|--|
| Protect sites, buildings, and objects with national, state or local historic, cultural and/or archeological significance. Identify effects of project on properties | National Historic Preservation Act, 16 U.S.C. 470(f), section 106 | 36 CFR Part 1294<br>36 CFR Part 800<br>24 CFR Part 58.5(a) |

**1. Does the project include repair, rehabilitation or conversion of existing properties 45 years or older, new construction, the acquisition of undeveloped land, or any construction that requires ground disturbance (defined as one cubic foot of disturbed soil)?**

- ☐ No: STOP here. The Section 106 Historic Preservation review is complete. Record your determination that the project type will not adversely affect historic properties on the Statutory Worksheet or Environmental Assessment.
- ☐ Yes: PROCEED to #2

**2. Does the project involve only those activities permitted without further consultation under a programmatic agreement among the responsible entity, the State Historic Preservation Officer (SHPO) or Tribal Historic Preservation Officer (THPO) and the Advisory Council on Historic Preservation?**

- ☐ Yes: STOP here. The Section 106 Historic Preservation review is complete. Record the date of the programmatic agreement and your determination that your project fits within the agreement on the Statutory Worksheet or Environmental Assessment.
- ☐ No: PROCEED to #3

**3. Does the project involve a structure that is less than 45 years old with no ground disturbing activities and you have determined there is no potential to cause effects on historic properties per 36 CFR 800.3(a)(1)?**

- ☐ Yes: STOP here. The Section 106 Historic Preservation review is complete. Record your determination that there is no potential to cause effect, including the age of the existing building if appropriate, on the Statutory Worksheet or Environmental Assessment.
- ☐ No: PROCEED to #4

**4. Will the project and its Area of Potential Effect (APE) have an adverse effect on any property(ies) listed or eligible for inclusion on the National Register of Historic Places?**

- The APE is defined as the geographic area within which an undertaking may directly or indirectly cause changes in the character or use of historic properties. The APE is influenced by the scale and nature of an undertaking. (36 CFR Part 800.16)
- Consult the State Historic Preservation Officer (SHPO) or if the project is on tribal land, the Tribal Historic Preservation Officer (THPO) with details of the project and project site. Determine whether your project will directly or indirectly alter any of the characteristics of the property or its Area of Potential Effect in a manner that would diminish the integrity of the property's location, design, setting, materials, workmanship, feeling or association. In Washington and Oregon, the SHPO has developed forms to help with the consultation process. Links to these forms are included in the attached Pacific Northwest Contact Sheet. SHPO or THPO has 30 days from receipt of a well-documented request to make a determination. We recommend sending the letter with a return receipt form to document the contact. If they do not respond within the timeframe, you may proceed with your determination or consult with the Advisory Council on Historic Preservation (ACHP). Contact information for State Historic Preservation Officers is available at [www.achp.gov/shpo.html](http://www.achp.gov/shpo.html), and for Tribal Historic Preservation Officers at <http://www.achp.gov/thpo.html>.
- Determine if there are tribes or groups that have demonstrated interest in the historic aspects of the project and invite them to participate in the consultation. You must make a reasonable and good faith effort to identify Indian tribes that may have an interest. This website offers a database of Indian Tribe interest by county: <http://www.cast.uark.edu/other/nps/nacd/>. Your state's Office of Indian Affairs may also have information on tribes in your area. (Please see attached Pacific Northwest Contact sheet for details.)

- ☐ No: STOP here. The Section 106 Historic Preservation review is complete. ☐ Attach SHPO concurrence to the ERR and copies of letters to and from other interested parties and your response. If SHPO/THPO did not respond within 30 days, your dated letter documents compliance. Record your determination of no adverse effect on historic properties on the Statutory Worksheet or Environmental Assessment.
- ☐ **Yes: Resolve Adverse Effects per 800.6 in consultation with SHPO/THPO, the ACHP if participating, and any consulting parties. The loan or grant may not be approved until adverse effects are resolved according to 800.6 or you have considered ACHP comments.**
